

Where integrity and quality come together.

[www.cross-trailers.com](http://www.cross-trailers.com)

# The **Cross** Difference

We believe retail customers should be able to get the trailer they want, built correctly, on time, and built to last. We also believe quality doesn't come from promises, it comes from combining design, materials, and craftsmanship into a solid product. You will find many of our competitors upcharge for options that Cross Trailers includes in our standard build. If you desire to purchase a trailer from a company that believes in honesty, time-honored workmanship and integrity, Cross Trailers is the only choice for you.

## Cross Standard Design Features:

- Tube frame walls, mains, ceiling standard—It's stronger
- 1 piece aluminum roof—To minimize leaks
- .030 exterior aluminum—For more durability
- Fully enclosed wall for dust / water seal—To protect your cargo
- Electrolysis (corrosion) resistant design—For longer life
- All exterior lights LED—More efficient & longer lasting
- Flat top design—Greater strength

We're a company that cares about the success of their employees, vendors, dealers and customers. A company committed to doing the right thing, **EVEN WHEN ITS HARD**. One that takes pride in maintaining a strong moral compass while aiming to offer the best product in the market.

Duane says, "just bought a Cross 7x14 and absolutely love it. Already have lots of compliments on how nice it is."

- Coin or Spray Flooring
- Cabinets

*Jim says, "I saw Cross QUALITY first hand. Others just show the pretty outsides, but the quality is built on the inside!"*

*Robert says, "well built trailer with attention to detail. I've had different trailers over the years but I feel 'Cross' builds the best trailer on the road. Keep up the great work."*
